

Errors in Admin Account Website - Version 2

Date: 25.3.18

TODO

1. Add a new payment method, 'Cash', which will display the bank details to deposit fiat currency into an account. Once deposited, users will have the option to submit a request to the admin. Once the admin receives the money, he can approve the request and tokens will be credited to the user account.

Missing [New]

1. There is no mechanism to manage user fund deposit requests.. [New] [High Priority]

Dashboard

1. Aren't these rates supposed to be dynamic and real time? I think they're hard coded here [Still Unsolved]

2. Use Original symbols instead of golden symbols in the top rate strip as well [New]
3. Does admin need a referral code? [Still Unsolved]

Users

1. It is very difficult to manage the table with a scroll bar. Make it so that it all fits in one view. [Still Unsolved]

Rates Setting

- 1. Add unit of bonus [Still Unsolved]

Bonus

20

Overall [New]

- 1. Missing symbols on the whole website
